

## LLIS.gov Resources for Radiological Dispersal Devices

### A TOOL FOR ENHANCING NATIONAL PREPAREDNESS

Lessons Learned Information Sharing (LLIS.gov) is a US Department of Homeland Security/Federal Emergency Management Agency program. LLIS.gov serves as the national, online network of lessons learned, best practices, and innovative ideas for the emergency response and homeland security communities. This information and collaboration resource helps emergency response providers and homeland security officials prevent, protect against, respond to, and recover from terrorist attacks, natural disasters, and other emergencies. LLIS.gov provides Federal, State, and local responders with a wealth of information and front-line expertise on effective planning, training, and operational practices across homeland security functional areas.

#### LLIS.gov at a Glance

- Online since April 19, 2004
- Over 43,000 registered members
- Over 12,000 documents, including more than 1,500 state and local plans, 600 after-action reports, and 750 original content documents
- Secure message boards and collaboration tools
- Targeted information on current homeland security topics

### RADIOLOGICAL INCIDENT RESOURCES

Information on the Radiological Dispersal Device (RDD) page addresses all phases of RDD emergency management. Documents in the RDD resource library cover such topics as:

- Incident Identification and Radiation Detection Equipment;
- Training and Exercises;
- Protective Actions;
- Evacuation and Shelter-in-Place;
- Decontamination;
- Medical and Psychological Management;
- Emergency Communications; and
- Site Decontamination and Recovery.

### RDD DOCUMENTS ON LLIS.GOV

The RDD page offers a searchable directory of related documents, including:

- Radiological Dispersal Device Incident Response Planning (Best Practice Series)
- Population Monitoring in Radiation Emergencies: A Guide for State and Local Public Health Planners
- Radiation Detection Equipment for First Responders
- Law Enforcement: Ensuring that Instructions and Signage Directing Drivers at Inspection Stations are Clear and Concise (Lesson Learned)
- Psychological and Behavioral Issues Healthcare Providers Need to Know when treating Patients Following a Radiation Event
- Facts About Evacuation During a Radiation Emergency
- United States Nuclear Regulatory Commission's Fact Sheet on Dirty Bombs
