Strengthening Homeland Security

## LLIS.gov Resources for Transit Security

### A TOOL FOR ENHANCING NATIONAL PREPAREDNESS

Lessons Learned Information Sharing (LLIS.gov) is a US Department of Homeland Security/Federal Emergency Management Agency program. LLIS.gov serves as the national, online network of lessons learned, best practices, and innovative ideas for the emergency response and homeland security communities. This information and collaboration resource helps emergency response providers and homeland security officials prevent, protect against, respond to, and recover from terrorist attacks, natural disasters, and other emergencies. LLIS.gov provides Federal, State, and local responders with a wealth of information and front-line expertise on effective planning, training, and operational practices across homeland security functional areas.

#### LLIS.gov at a Glance

- Online since April 19, 2004
- Over 50,000 registered members
- Over 14,000 documents, including more than 1,700 state and local plans, 700 after-action reports, and 900 original content documents
- Secure message boards and collaboration tools
- Targeted information on current homeland security topics

### TRANSIT SECURITY RESOURCES

The LLIS.gov Transit Security page provides emergency planners with a single source for transit security information, such as emergency operations plans, security measures, lessons learned, best practices and after-action reports, as well as a discussion forum and a focus on high-profile and international incidents. Resources on the page feature the following highlighted topics:

- Exercises;
- Detection, prevention, and response;
- Policy guidance; and
- Transit security planning.

### TRANSIT SECURITY DOCUMENTS ON LLIS.GOV

The Transit Security page offers guidance documents, LLIS.gov original content, plans, templates, and other information relating to transit security, including:

- Assessment: Increased Mass Transit Ridership Presents Security Challenges;
- Chemical Detection and Response Enhancement for Transit Systems (Good Story);
- Emergency Communications: Improving Communications with Train Passengers Trapped Underground Following a Mass Casualty Incident (Lesson Learned);
- National Transportation Safety Board: Progress Made in Management Practices, Investigating Priorities, Training Center Use, and Information Security;
- Regional Transportation Planning: Improving Communication Procedures (Lesson Learned);
- Risk Assessment: Transportation (Best Practice);
- State Public Transportation Division Involvement in State Emergency Planning, Response, and Recovery;
- TSA's Explosives Detection Canine Program: Status of Increasing Number of Explosives Detection Canine Teams; and
- West Virginia Department of Transportation Division of Public Transit Emergency Procedures Quick Reference Guide.
